

# SERP Services

## Supported Employment Services

Individuals choosing employment will be assisted to find a job of their choice. Many methods may be used to arrive at the goal, including community-based assessment with opportunities to try out on some real jobs and job exploration in the community. A job coach may be available as long as needed. In addition to individual placement, work crews are often available for those needing additional supports.

## Recreation & Leisure Activities

Participants plan their week and keep a record of their activities. Activities are planned on an individual basis with major input from the consumer. Activities include but are not limited to trips to town and the library, bowling, camping, fishing, in-house crafts and games, and day trips out of town.

## Post-Secondary Education

SERP is a licensed Special Education School, available to provide school and post-secondary education through the school districts.

For further information, or to arrange a tour, please call the phone number for the department in which you're interested
